

PERTH AIR & POWER
SOLUTIONS

Capability Statement

Perth's Leading Refrigeration, HVAC & Electrical Provider

Proudly WA Owned & Operated

Established in 2014, Perth Air and Power Solutions specialises in commercial Refrigeration, Air-Conditioning, and Electrical services. We cover everything from design and installation to maintenance and servicing, ensuring top-tier workmanship while adhering to Australian regulations and safety standards. Unlike larger companies, we handle all tasks in-house to consistently deliver exceptional results.

We are committed to continuous improvement, fostering a strong company culture and refining our processes through comprehensive training and development programs.

At Perth Air and Power Solutions, our core values support a commitment to excellence. We believe in honesty, taking responsibility, and ensuring that we always do what's right for our clients. In doing so, we offer a service that consistently exceeds expectations.

"Our vision is to be recognized as the industry leader for the commercial, industrial, and mining sectors."

Our Leadership

Jason Hobson
Owner Managing Director

A refrigeration technician and licensed electrician with 21 years' experience, Jason brings valuable expertise to the team. He ensures the highest standards of compliance and quality are upheld in every service, guiding the direction and operational performance of the organisation.

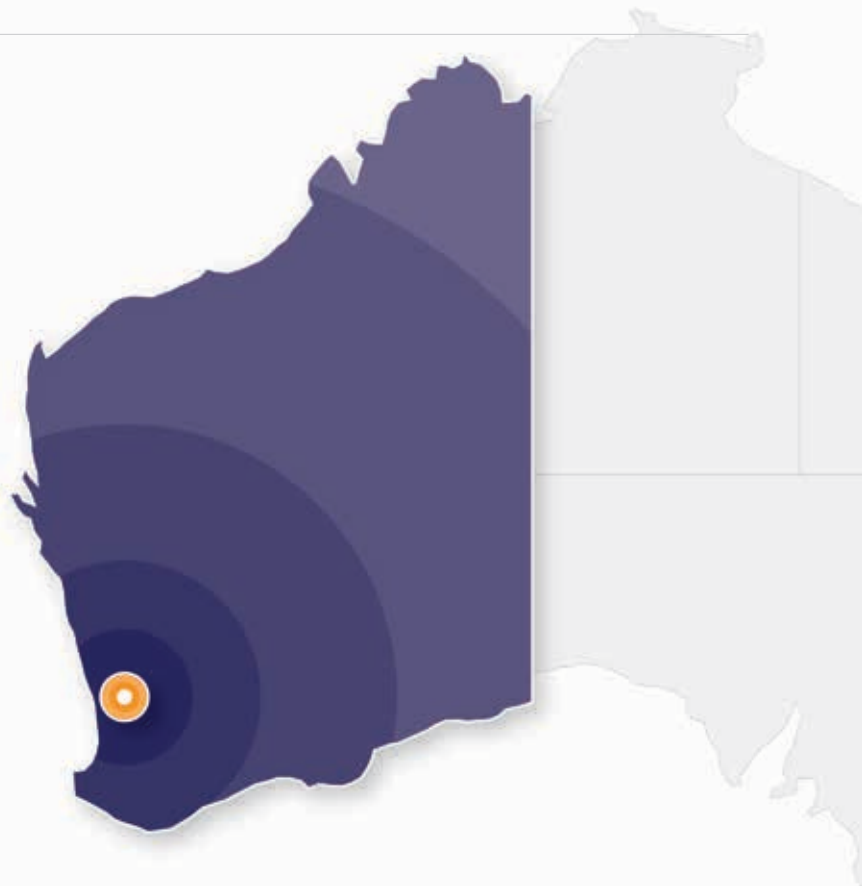

Chris Mudge
Operations Manager

With 15 years of experience as a licensed electrician and refrigeration technician, Chris brings a wealth of technical expertise. He is currently pursuing a Cert IV in Leadership and Management, and his outstanding communication and organisational skills make him an asset to have on any project.

Turnkey Commercial Solutions for WA

Centrally located in the heart of Perth, our team is a premier choice for **Refrigeration**, **Air-Conditioning**, and **Electrical** services. Our versatile and highly technical workforce offers flexible services, open and clear communication, and expert problem-solving to ensure the simple, straightforward delivery of top-tier solutions to our clients.

Our Core Competencies

Communication

Keeping you informed is a priority. Our commitment to clear and proactive communication ensures that you are always up to date and well-informed.

Quality Training

There is no substitute for quality. Through in-house training and rigorous competency testing, we aim to consistently surpass industry standards.

Safety

We don't take chances with safety. We invest substantially in modern equipment and ongoing training to eliminate risks and maintain a safe workplace.

Comprehensive Service

We provide complete, end-to-end solutions. Our teams cover every aspect, from engineering and design to installation, maintenance, and repairs.

On-Time Performance

You can count on us to be on time, every time. Through effective planning and proactive communication, we drive projects toward timely completion.

Accountability

We strive for accountability across all of our operations, performing regular internal audits, monitoring KPIs, and continuously improving processes.

Design

Innovative Solutions, Tailored to You

Our teams deliver efficient, best-practice solutions that balance high thermal comfort with low operating costs. Possessing strong thermal modelling capabilities, we innovate in every sector, working in full compliance with all industry standards.

Supply & Installation

Seamless Procurement & Installation

We partner with top manufacturers for seamless supply and installation. Our skilled technicians install systems to client requirements, whilst our commissioning process guarantees all equipment is set up for peak performance and reliability.

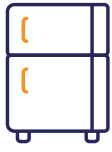

Maintenance & Repairs

Reliability & Rapid Response

We support our clients with reliable maintenance and repair services. Our staff are trained and accredited in the systems they install and are fully equipped to repair and maintain your assets to manufacturer standards, minimising any operational downtime.

Refrigeration

We specialise in providing industry-leading refrigeration solutions, ensuring precise cooling for optimal equipment reliability and energy efficiency.

Air-Conditioning

Our tailored air-conditioning services cater to both commercial and industrial clients, optimising comfort and productivity.

Electrical

Offering customised electrical services, we prioritise safety, efficiency, and innovation to drive progress and reliability.
